

## CLARIFICATION AND NOTICE

**SUBJECT: REFERENCE AMENDMENT NO. 0004 TO REQUEST FOR PROPOSAL (RFP) DACA45-03-R-0027, AMENDMENT NO. 0004 TO RFP DACA45-03-R-0028, AND AMENDMENT NO. 0005 TO RFP DACA45-03-R-0029.**

The Government does not intend to execute UXO removal actions under these contracts. The purpose of removing the statement “OE is not covered under this contract” was to ensure that OE as described was not considered out of scope of the contract. Primarily, the Government wants to ensure that it is able to clean up an environmental site that may contain small arms ammunition, e.g., a small arms firing range with lead contamination. Due to the relative insignificance of the work as it relates to OE, the Government does not intend to evaluate OE experience in these RFPs.

Due to the relatively short time frame for response to the above referenced amendments, the Government will accept acknowledgement on the face of the above referenced amendments (SF30). Since the amendments did not change the scope of the contract, the proposal due date was not extended. If this causes an issue with the offeror, please contact Famane Brown at 402-221-3116 or Douglas Hadley at 402-221-4115 immediately.
